

## **THE ALPS CULTURAL TOUR ATTRACTED MANY PARTICIPANTS 09-11-2019**

Every success brings satisfaction to the organizers as well as to the participants. It was evident from the very beginning, that the ALPS cultural tour at Valletta on 9th November 2019, was another colorful page added to the ALPS history book.

Forty-one persons turned up for a cultural tour of The Museum of Archaeology and the Muza Fine Arts Museum that was opened quite recently. At both locations, the ALPS group were lucky to be taken around by expert guides, who demonstrated great expertise, whilst explaining about all that was found and admired inside the museums. Using the Senior Citizen passport, entrance was free for all those who took part.

On such occasions, the **Association of Lyceum Past Students** really appreciates the feedback from those who take part. In the attached set of photos, one may notice the innumerable paintings and sculptures by famous artists and a wide variety of objects d'art found under one roof.

Having spent a nice morning together, the ALPS group shared a set light meal at the same Muza Cafeteria. May be, it can be worth the time to pay another visit and admire in greater detail all the treasures that are found at the two museums.
