

PHOTOS FROM THE ALPS DAY TOUR TO GOZO 9TH OCTOBER 2015

A day tour to the sister island of Gozo organized by The Association of Lyceum Past Students, has attracted 39 participants. A coach left from San Gwann to Cirkewwa and the group boarded the Gozo Ferry. On arrival, another coach was awaiting the group who were driven to the MAGRO Village in Xewkija.

Needless to say, the directors and staff of this large industry, have made it a point to welcome the ALPS group and explain in great detail the process for the making of tomato paste, ricotta, cheese, and many other items that all fall under the Magro brand of products. Such products are making great success with sales in many other Countries.

After the factory tour, the group were taken to a very nice included lunch at the Lantern Restaurant at Marsalforn. We then paid a short visit to the Shrine of Our Lady of Ta Pinu. The last stop of this day tour in the island of Gozo, was a visit to the Lord Chambray Beer plant in Gozitano Complex Xewkija. Again. The brewery owners have welcomed everyone and explained the full process how beer is produced in four different brands. The beer tasting went down well with all the participants who then purchased and brought with them to Malta packs of the same beers. Also within the same complex, one could visit Abrahams and Vini e Capricci where more purchases were made. The ALPS members and friends carried quite a handful of bags that were loaded with many products from the places that have been visited.

Another success to ALPS that has gone down pretty well with all who have joined us on this day tour to Gozo.

GEORGE STAGNO NAVARRA
